GENERAL INSTRUCTIONS:

1. This test booklet contains 200 objective type multiple choice questions. All questions carry equal marks.
2. There will be 25% negative marks for wrong answers.
3. Each question in this booklet is followed by four answers. Select the correct answer and put a tick (✓) mark in the box 'a', 'b', 'c', or 'd' against the serial number of the question in the separate answer sheet given. For example if the correct answer is 'c' then it should be shown as follows

a	b	c	d
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. If you wish to change your answer, cross (X) the already ticked box and put a tick mark in the correct box.
5. Take care that you mark only one answer for each question.
6. All rough work is to be done on the test booklet itself and not on any other paper.
7. Calculator is not allowed
8. Any candidate found copying, receiving or giving assistance, in the examination will be disqualified
9. All candidates must return to the invigilator this TEST BOOKLET and ANSWER SHEET at the end of the test. Candidates who do not comply with this would be summarily disqualified from the examination.
10. Once the test begins, the invigilator will not entertain questions of any sort seeking clarifications.

**DO NOT OPEN THIS TEST BOOKLET
UNTIL YOU ARE TOLD TO DO SO**
